## Summary

Enthusiastic Software developer with hands-on experience in back-end web application development, API integration, and relational database management. Adept in developing object-oriented applications, RESTful web services, and scalable systems. Demonstrates a strong focus on innovation, team collaboration, and continuous growth. Seeking to contribute to IBM Infrastructure's hybrid cloud platform by delivering high-performance solutions that align with customer needs and enterprise goals.

## Internship experience

Software Engineer intern

xxx foundation

June 2024 – July 2024

- developed an e-commerce web application using Django and Python, implementing back-end services and product logic.
- Created and tested RESTful APIs to facilitate frontend-backend communication.
- Integrated SQLite database with efficient query structures and data relationships.
- Participated in daily scrums and collaborated with mentors using Git version control.

## Projects

Client management system

PHP and MySQL

- Designed a modular and object-oriented PHP application to manage client records and services.
- Built and connected to a MySQL relational database to store client and service data.
- Created user authentication, admin dashboard, and notification features.
- Integrated web forms for CRUD operations using POST and GET methods.

## Education

Bachelor in Computer applications BENGALURU NORTH UNIVERSITY

2024

- CGPA: 8.71

XII AMARA JYOTHI PU COLLEGE

2021

- Percentage: 74.66

X AMARA VIDYA ENGLISH MEDIUM HIGH SCHOOL

2019

- Percentage: 82.88

## Key Skills

Languages: PHP, Python, JavaScript, HTML, CSS

Back-End: Object-Oriented Programming, REST API, SOAP

Databases: MySQL, SQLite

Tools & Platforms: Git, Docker (basic), Kubernetes (basic), phpMyAdmin, VS Code

Other Skills: API Design, Cloud Infrastructure Concepts, Agile Collaboration, Version control

## Certifications

AI python programming
